DETAILED ACTION

The timely submission under 37 CFR 1.129(a) filed on 10/4/2006 is not fully responsive to the prior Office action mailed on 5/12/2006 because Applicant's election of species 4b.2 with -Br substituent at 5-position on pyrimidinyl moiety is not covered by the formula in claim 15, wherein the 5-position is -H. Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Office action, Applicant is given ONE MONTH or THIRTY DAYS from the mailing date of this notice, whichever is longer, to submit a complete reply in order to avoid abandonment. This time period may be extended pursuant to 37 CFR 1.136(a).

Restriction is required under 35 U.S.C. 121 to one of the identified patentably distinct groups. A reply to this requirement must include an election of a single group for prosecution on the merits, even if this requirement is traversed, 37 CFR 1.143. Any reply that does not include election of a single group will be held nonresponsive.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.
